PARTNER AGREEMENT			
quantity of one or more Priority Chemicals currently found in our	this enrollment application, we identify one or more voluntary goals oluntary goal(s) provided below is an initial estimate and may		
GOAL #1. Chemical Name: Lead	CASRN: 7439-92-1		
Narrative description of proposed project:			
We will pursue the reduction of lead products purchased and use	d in our products by developing low-cost alternatives for our		
customers and by marketing these alternatives as environmentally			
How we will measure success:			
We will measure success by comparing the amounts of lead pure	chased in 2005 and 2006.		
1a. Our voluntary source reduction goal for Chemical #1 is to red amount of 19,000 pounds in January, 2006 (month/year) to a December, 2006 (month/year).	reduced amount of 18,000 pounds generated/used by		
1b. To accomplish this goal, we will use the following source redu	iction options (check all that apply):		
X Equipment or technology modifications. X	Process or procedure modifications.		
X Reformulation or redesign of products. X			
Improvements in inventory control.	_ Improvements in maintenance/housekeeping practices.		
X Other (describe): Offer the following plating and coartin, Immersion Silver, and Electroless Gold	atings as alternatives to lead: Organic Coating (OSP), Immersion		
Tin, Immersion Silver, and Electroless Gold	<u>.</u>		
2a. In addition to, or in lieu of using source reduction methods, ou increase the recycled or recovered quantity of this chemical from a year) to an increased quantity of pounds by	a baseline amount of pounds in (month/		
2b. To accomplish this recycling or recovery goal, we will use the Direct use/reuse in a process to make a product. Processing the waste to recover or regenerate a usable Using/reusing waste as a substitute for a commercial product. Other (describe):	product.
